The screenshot shows the WordPress dashboard with the 'Plugins' menu item selected in the left sidebar. The sidebar also shows 'InstaBuilder 2.0' circled in red. The main content area lists several plugins:

- AKismet**: Used by millions, Akismet is quite possibly the best way in the world to protect your blog from spam. It keeps your site protected even while you sleep. To get started: 1) Click the "Activate" link to the left of this description, 2) Sign up for an Akismet plan to get an API key, and 3) Go to your Akismet configuration page, and save your API key. Version 3.1.5 | By Automattic | View details. There is a new version of Akismet available. View version 3.2 details or update now.
- CKEditor for WordPress**: Replaces the default WordPress editor with CKEditor. Version 4.5.3.3 | By CKSource | View details.
- Evergreen Countdown Timer**: Evergreen Countdown is a plugin built for marketers that need a reliable solution to use scarcity on their websites and landing pages. Version 1.0.9 | By IntelyWP | View details. There is a new version of Evergreen Countdown Timer available. View version 1.1.0 details or update now.
- Google Analytics by Yoast**: This plugin makes it simple to add Google Analytics to your WordPress site, adding lots of features, e.g. error page, search result and automatic outgoing links and download tracking. Version 5.4.6 | By Team Yoast | View details. There is a new version of Google Analytics by Yoast available. View version 5.5.4 details or update now.
- Hangout Plugin**: Another UMO plugin. Allowing you to create Webinars from hangouts with registrations and follow ups. Version 2.0.5 | By Walt Bayliss | Visit plugin site.
- Hello Dolly**: This is not just a plugin. It symbolizes the hope and enthusiasm of an entire generation summed up in two words sung most famously by Louis Armstrong: Hello, Dolly. When activated you will randomly see a lyric from Hello, Dolly in the upper right of your admin screen on every page. Version 1.6 | By Matt Mullenweg | View details.
